To the Generous Hearts of Montgomery County, Texas and Beyond!

Greetings,

We are "Bee the Future," a newly established 501(c)(3) nonprofit dedicated to empowering at-risk youth (ages 16-24) in Central Texas through beekeeping training. Our mission to foster job skills, resilience, and financial literacy while producing Texas honey and promoting pollinator health stands at a critical juncture. As we launch our \$250,000 funding campaign, we humbly seek your support to fund advertising that will amplify our reach and bring hope to our community.

As a beginning nonprofit, we come to you with open hearts, requesting contributions to cover ad costs such as Google Ads, social media campaigns, or local promotions. In return, we offer the following sincere incentives:

- Public Recognition: Your name or logo will shine on our website, @thefuturebee on X, and printed materials, connecting you to our growing audience of supporters and youth advocates.
- Mutual Link Exchanges: We will place a reciprocal link on our site to yours, driving traffic both ways, benefiting local businesses and organizations alike.
- Event Partnerships: Join us in cohosting a honeytasting day or beekeeping workshop, where 25% of proceeds return to you, enhancing your community goodwill while we raise funds.
- Social Media Shoutouts: Expect regular posts or stories on X, thanking you by name and sharing your mission with our expanding followers.
- In-kind Promotion: Fund our honey production, and your branding will grace our jars or training materials, turning your support into a marketing asset.

This support is vital to our \$250,000 goal, enabling us to train 30 youth annually, establish a 40-hive apiary, and strengthen the Texas honey industry. Your generosity will not only sustain our hive but also elevate your presence among those who care deeply about youth and sustainability.

Please consider this request with kindness. Contact us at info@beethefuture.net or 512-633-7487 to explore how we might partner. Together, let us buzz toward a brighter future.

With heartfelt gratitude,
Bee the Future
17324 Main Drive, Willis, Texas
